

## INSERT OF JBL NISWAN

### Sharbat Niswan

#### Description :

JBL Niswan has a regularizing influence on the menstrual cycle by virtue of its uterine stimulant action . Its stimulatory effect on the ovarian tissue helps regularizing endogenous hormonal secretion , enhances the repair of the endometrium and thus controls abnormal uterine bleeding . Its anti-inflammatory action has a healing effect on the uterus and its antispasmodic action alleviates pain . The immuno-modulatory and haematinic properties of NISWAN are beneficial in anemia and the generalized weakness associated with uterine disorders .

#### Composition :

Each 5 ml syrup contains (As aq extract )-
